AUGUST 30TH – John, Steve & Bill in Des Moines, IA

SEPTEMBER 1ST & 2ND – Brian & Lynn in Omaha, NE

WHO

Tyler Searle, Technical Sales Engineer, at Muscle Wall will be visiting our ASP and Quick Supply branches to provide demos and presentations to contractors, engineers, etc. who would like to learn more about the product.

WHAT

Muscle Wall is an innovative solution with endless applications. It's a portable, strong plastic barrier available in 8 different sizes. It is primarily used to contain or divert water; however, it has many other applications and can be used as an effective alternative to silt fencing, sandbags, concrete and earthen solutions. Muscle Wall is designed to withstand the immense force of rushing or standing water and a liner can be added over the wall to help provide the most effective seal. This versatile system is quick and easy to install, reusable, optimized for storage and customizable to fit a project's needs.

WHY

Muscle Wall is FM Approved! Muscle Wall was recently awarded FM Approval for their 2-foot, 3-foot and 4-foot walls by USACE.

WHERE

Contact your local technical sales representative for more information or to schedule a time and location for a demo/presentation.
